

EAST & WEST ESSENCE RETREAT- CHINESE MEDICINE (TCM), AYURVEDA & BREATHWORK

2ND TO- 6TH OCTOBER 2026

A five-day immersive retreat in the heart of the Dolomites, set in a 5-star luxury hotel surrounded by nature in its purest form—hidden spots to soak up the sun, forests offering shade, crystal-clear lakes, gorgeous peaks all around, and a horizon that invites you to dream. Designed for a limited group to ensure an intimate and highly personalized experience, it includes daily morning breathwork, a Chinese Medicine consultation, bespoke day programs and treatments, curated workshops, exclusive scenic hikes, a meaningful reset, and a transformative health and well-being journey—an experience of true restoration in one of Europe's most beautiful natural settings.

The Wellbeing art Ibiza by Marina Prohens

A family passion project that began with architect Marco Micheli of the Comfort Architekten studio in Brunico, conceived to be unique and in perfect harmony with its surroundings. Inspired by the steeply sloping terrain at the foot of the Plose, a multi-level terraced structure was created, thoughtfully integrated into the landscape. In this way, the hotel has also preserved the wonderful panoramic view, opening onto the Dolomites and the splendid town of Bressanone.

Marina Prohens Costa is **The Wellbeing art Ibiza** and **East & West Essence retreat** Founder. She specializes in **Chinese Medicine (TCM)** and **Acupuncture**, with a deep background in **Ayurveda**, she is a certified **Breathwork instructor** and applies an integrative approach that combines a range of disciplines, treatments, massage techniques and therapies. She also holds a degree in **Tourism(Hotel management)**. Born and based in **Ibiza** where she currently runs her **Chinese Medicine and Acupuncture clinic** and **Wellness consultancy**,

Marina lived and studied in **London, Barcelona, India** and **China**, she designed the **East & West Essence Retreat program** and its signature treatments performing her work in different luxury resorts in **Tulum** and continued to expand her extensive experience at prestigious international luxury resorts such as **Sublime Comporta, Four Seasons Hotel des Bergues Geneva, Four Seasons Hotel Doha, Four Seasons Bangkok, Mandarin Oriental Barcelona, Mandarin Oriental Marrakech** and others ... Since her teenage years Marina has felt a strong connection with **India** and Asia where she discovered her true vocation and love for **integral health and well-being**.

Treatments & Bespoke day programs

EAST & WEST ESSENCE

110 min

A personalized signature treatment that integrates both Eastern and Western techniques, including Abhyanga Ayurvedic massage, Swedish massage, Deep tissue, Tuina, Shiatsu, reflexology, and Indian head massage. Various pressures and essential oils are used to tailor this unique experience specifically to your individual needs.

Following a Traditional Chinese Medicine (TCM) diagnosis, additional Acupuncture, moxibustion, cupping, or auriculotherapy may be incorporated to enhance the benefits of the treatment.

Stimulates the body's natural healing process by restoring the flow of Qi ("vital energy"), improving circulation, and reducing stress-related tension and muscle stiffness. It promotes deep relaxation, enhances joint function, alleviates pain, and helps release emotional blockages

The De-Stress & Balance Program helps restore balance to your life through a fusion of techniques from Traditional Chinese Medicine and Ayurveda.

It is designed to meet each individual's needs, bringing rejuvenation and harmony to both body and mind.

This program helps reduce stress and anxiety, improve insomnia, release emotional blockages, and create an overall sense of well-being.

Chinese Medicine Detoxification uses gentle methods to restore the body's natural balance. Stress can block the flow of energy, making it easier for toxins to accumulate.

Chinese Medicine (TCM) helps unblock stagnant energy and supports the body in releasing toxins. It may help prevent emotional eating, reduce cravings, improve digestion, and support conditions such as bloating or water retention/edema

This approach also helps balance hormones and supports women's health, promoting overall harmony.

A customized program combines a variety of treatments to harmonize, optimize, and rebalance your health at the physical, psycho-emotional, and energetic levels, offering an integrated approach
